You shop. Amazon gives.

Our Veteran Service Program is in need of volunteers. If you are a passionate and experienced fly-fishing angler who would like to mentor local Veterans, contact: rasills@earthlink.net

You shop, Amazon gives. Select the Spring Creek Chapter of Trout Unlimited, and 0.5% of all purchases support local conservation. Click [here](#).

Join our Women Anglers Group!

14 of our Women Anglers attended an outing on August 23rd. Special thanks to Judi Sittler who gave everyone a beetle that she tied. Bob Bizak, gave each angler a special leader and two hours of instruction for high stick nymphing. TU member, Jim Hepner, tied and sent many flies, including a caddis, ant, and a scud. Our Women Angler's Group provides the means for women fly-fisher's to meet, network, fish, and socialize. This active group meets about once per month.

Visit our [website](#) for more information. Contact Diane Brown to join:

November General Meeting

Our Guest Speaker will be Sara Mueller, who is currently working on her Ph.D. at Penn State. Her focus is on the genetic and phenotypic variation in brook trout across Pennsylvania. Ms. Mueller is looking for Brook Trout anglers to assist in her research! This free meeting will be held virtually via Zoom on *Thursday, November 5th at 6pm*. Contact Dave for more information: D9D@psu.edu

The Spring Creek Watershed Atlas

Invasive Plants of the Spring Creek Watershed
By: Terry Melton, PhD., Director

Our Centre Region is blessed with stunningly beautiful ecosystems and environmental resources. In the wake of books like Doug Tallamy's *Bringing Nature Home*, which encourage the general public to learn about and enjoy the native plants that they host locally, there has been enormous interest in the plant communities of the Spring Creek Watershed, one of the most studied watersheds in North America.
