

Tertiary Treatment

A Monthly Newsletter of the Spring Creek Chapter of Trout Unlimited

Volume 33, Issue 02

February 2010

In This Issue:

Membership Meeting Information

Newsletter Editor Change and Format Changes

Announcing the 2010 SCTU Board Members

Membership Meetings

February 4: Members of the PSU Flyfishing Club will put on a fly tying demonstration which will feature a variety of different patterns being tied by each person. This is a particularly good opportunity to see how patterns come together and to ask questions about techniques used.

March 4: Rebecca Dunlap and Jason Detar: "Biological and Chemical Conditions on the West Branch of the Susquehanna - Analysis of Data from Recovery Benchmark Inventory". Becky Dunlap is the TU Project Manager for the WB Susquehanna Restoration Project, and Jason Detar represents PA Fish and Boat Commission.

April 9: Save this date and mark your calendars for the annual Spring Creek TU Banquet

Membership Meetings and SCTU Board Meetings are held at the Comfort Suites Hotel, 132 Village Drive, State College at 7:30 p.m. Board meetings are held on the second Monday following the scheduled Membership Meeting. Using this formula, the next Board meeting will be held on **February 15, 2010**. Chapter members are encouraged to attend the Board meetings. The Board members welcome and appreciate participation by Chapter members. As many of you know, our membership and board meetings are held at the Comfort Suites Hotel. Comfort Suites provides the rooms to us at no charge. We thank Karen Mansfield and her staff for their support.

Newsletter Editor and Format Change

Among some of the recent changes in our Board structure and eNewsletter plans, I have again assumed the job of being your Editor. This may well be a temporary assignment while we migrate to the paperless process. As some of you may recall I served as Editor many years ago. The task then was more complicated and needed a lot of input by Ken Leath (a great helper!), our printer and the Post Office. Today the burden is lighter and the newsletter can be prepared and sent from any location where there is an internet connection. Using our List-Server, the eNewsletter will be sent 10 days before the monthly membership meeting date. At the same time Dan Kerstetter will receive a separate copy for inclusion in the SCTU web site. This should enable everyone to plan their attendance or participation.

If you have trouble receiving the eNewsletter, please contact me by email or telephone. My contact information is always posted on the last page.

I want to thank John Shafer for his many years of work as our Editor. He did a fine job for us and I am sure everyone appreciated his dedication. And of course I need to thank Bill Brusse who filled in during the transition period until John assumed the responsibility.

Because the use of the computer enables some interesting features to be added to a document, I am working on some format changes to the Newsletter. This issue reflects some things that are different from the past. Look for some color photos and information provided by useful websites I have contact with. Your ideas will always be welcome and if you want something included, send it to me. Do you have some nice fish photos? They would look great here !!
