

Summary of phone discussion with Joy Newcomer regarding her intentions for the estate donation to Spring Creek Chapter of Trout Unlimited (SCCTU). This document to be included with June 2018 Minutes as additional correspondence.

Lynn Mitchell received a phone call from Joy Newcomer of California in February 2018 regarding a donation she intended to make to SCCTU from proceeds of her brother's estate (James Firrell of Pittsburgh, PA) Joy described how her brother would frequently visit the State College area for weekends from his home in Pittsburgh to flyfish on Spring Creek. While Joy's son was attending Penn State in the early 2000's as a doctoral candidate, James would meet Joy and family and take them on tours of Spring Creek showing all of his favorite fishing spots and particularly pointing out all the stream improvement projects which had been done and how much they improved the fishing quality of the stream. Joy remarked that she knows it would be her brother's wishes that his money go towards the continued care and improvement of Spring Creek. Joy also ask that we share pictures of stream improvement projects paid for with her brothers estate. While there was no written instruction from Joy it is believed her intent of the donation was for tangible stream improvement projects.

Respectfully,

Lynn P. Mitchell

President , Spring Creek Chapter of Trout Unlimited
